

**Bayiibayii (Emu)**

Eggs are 13cm long and the largest of any Australian animal.

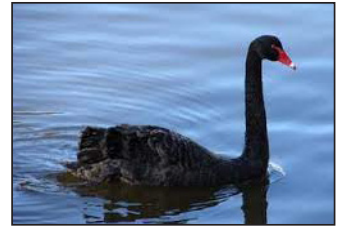

**Binaibaan (Goanna)**

Eggs are less pointed than bird eggs.

**Yunung (Leathery Turtle)**

Eggs are almost circular.

**Kanbal (Black Swan)**

Eggs are 11cm long. Swans build a nest of reeds and grass surrounded by water.

**Pirama (Australian Wood Duck)**

Lay 7 to 13 eggs and line the nest with their own soft feathers.
