

Just Draw

Percy Michell is a 5 and 1/2 year old boy. His mum is an artist. He loves all things art, geology, astrology and science.

Let Percy guide you through Just Draw.

Watch Todd's animated story Little Star. What do you think happened next? Draw the next part of the story here

Time for a treasure hunt! Can you find these things in Jeremy's imaginary map:

An elephant

A river of dreams

A unicycle

A fountain of youth

A flying horse

A tall giraffe

Well dressed people

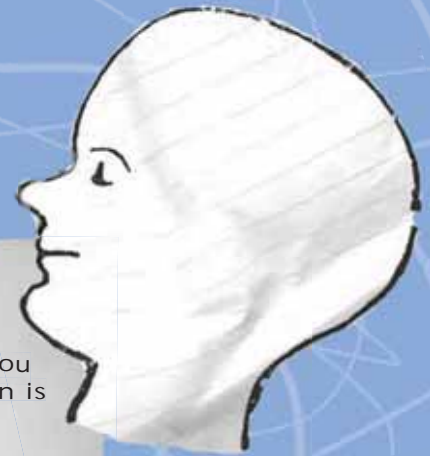

Knock, knock!
... Come in.

Who do you think is about to enter this room? Draw them in!

Kellie's artwork is called 'bald, bald, head and other stories.' What do you think the bald man is thinking about?

Write it or draw it here.

Matilda says practice is important!

Can you practice drawing hands here? You can use Matilda's drawings to help you.

Oh no! It looks like Paul has forgotten to finish his drawing.

You better help him finish it!

Circle the items you could use to make a drawing:

Pencil Tape Texta

Chalk Dust Paint

Tape Pen Fabric

Grant has made a drawing robot, use this space to design your own drawing robot:

Lisa has drawn flying ravens. Watch them soar in her animation. Draw a place for the crows to land.

At home try making your own drawing machine. Use tape to attach pencils to toys with moving parts.

Experiment with what marks different toys can make!

NEWCASTLE ART GALLERY

wattspace

In this gallery, you might find:
a man with scribbles, on his mind.

You may spot a messy room,
or some dust, don't get a broom!

Find the fan and tap the switch,
and the robot, did it just glitch?

Seek the man and watch him dance,
did you find them all by chance?
